## **Preface**    **xiii**

- Purpose    xiii
- Audience    xiv
- Sources    xiv
- Acknowledgements    xv

## **Chapter 1**    **Digital libraries: definition and characteristics**    **1**

- Outline    1
- Introduction    1
- What is a digital library?    4
- Hybrid libraries    6
- Characteristics of digital libraries    7
- The impact of digital libraries    9
- The structure of this book    12

## **Chapter 2**    **Features of some digital libraries**    **16**

- Outline    16
- Introduction    16
- Digital libraries: types    17
- Brief descriptions of selected digital libraries    21
- Summary    33

## **Chapter 3**    **Digital library research**    **35**

- Outline    35
- Introduction    35
- UK    36
- USA    45

Joint NSF/JISC international digital library projects	56
Canada	58
Europe	58
Digital library projects funded by the European Union	59
Australia	63
New Zealand	65
Summary	66

**Chapter 4 Digital library design 67**

Outline	67
Introduction	67
User-centred digital library models	69
Design issues	70
Digital library models	75
Hybrid library models	82
The DNER	86
Digital library standards	86
Summary	88

**Chapter 5 Collection management 89**

Outline	89
Introduction	89
The process of collection management	91
Collection development models	94
Electronic journals	96
Electronic books	97
Databases and services	101
Summary	101

**Chapter 6 Digitization 103**

Outline	103
Introduction	103
Issues related to a digitization project	104
The process of digitization	105
Technical issues	108
File formats	109
Post-processing	115

Access to digitized information 116

Costs of digitization 117

Summary 119

## **Chapter 7 Information organization 120**

Outline 120

Introduction 120

Problems of information organization in digital libraries 123

Classification of digital information 124

Information organization in selected digital libraries 136

Cataloguing and metadata 137

Digital content marking and manipulation 143

Recent research projects 147

Summary 150

## **Chapter 8 Information access and user interfaces 152**

Outline 152

Introduction 152

Information users 153

Information needs 154

The four-phase framework for information search 157

Information seeking and user interfaces 162

User interfaces and visualization 164

User interfaces of digital libraries 165

Information access in digital libraries 167

User-centred digital libraries 173

Summary 176

## **Chapter 9 Information retrieval in digital libraries 178**

Outline 178

Introduction 178

Information retrieval models 180

Vocabulary control 182

Alternative information retrieval models 184

Multimedia information retrieval 186

Basic information search techniques 188

Information retrieval features of various resources accessible through digital libraries	191
Information retrieval features of selected digital libraries	196
Problems and prospects	207
Summary	213

## **Chapter 10 Digital archiving and preservation 214**

Outline	214
Introduction	214
Digital preservation	216
Issues related to digital preservation	217
Digital preservation strategy	218
Research projects on digital archiving and preservation	221
The Internet Archive	225
E-print archives	225
Summary	226

## **Chapter 11 Digital library services 227**

Outline	227
Introduction	227
Personalized services: definitions of digital libraries revisited	229
Reference and information services on the web	230
Search engine services	234
Digital reference services and libraries	235
Current digital library research on personalized services	238
Current digital library projects on digital reference services	239
The evaluation of digital library services	242
Summary	243

## **Chapter 12 Social, economic and legal issues 246**

Outline	246
Introduction	246
Social issues	247
Economic issues	254
Legal issues	257
Legal deposit	265
Summary	265

<b>Chapter 13</b>	<b>Digital library evaluation</b>	<b>267</b>
	Outline	267
	Introduction	267
	Evaluation: the basic problems	268
	What to evaluate?	269
	Evaluation stages	271
	Evaluation criteria	272
	Evaluation studies	275
	Summary	283
<b>Chapter 14</b>	<b>Digital libraries and the information profession</b>	<b>284</b>
	Outline	284
	Introduction	284
	Digital libraries: major activities and skills	285
	Summary	291
<b>Chapter 15</b>	<b>Trends in digital library research and development</b>	<b>293</b>
	Outline	293
	Introduction	293
	Digital libraries: growth and development	293
	The impact of digital libraries	294
	Digital libraries to bridge the digital divide	295
	Users' information search behaviour	296
	Digital library services	300
	The economics of digital libraries	302
	Digital library education	303
	Digital libraries and knowledge management	303
	The future	305
	<b>References</b>	<b>308</b>
	<b>Index</b>	<b>349</b>
