- Acknowledgements.....ix**
- List of figures and tables .....xi**
- Introduction.....xv**
- 1 Digitization in the context of collection management..... 1**
  - Introduction..... 1
  - The impact of new technologies ..... 1
  - Collection management.....4
  - Access to content and context.....6
  - Planning and processing with minimal risk.....8
  - The four phases of digitization .....10
  - Fitting digitization into collection management .....13
  - Chapter summary .....14
  - Bibliography .....15
- 2 Before you digitize: resources, suppliers and surrogates .....17**
  - Introduction.....17
  - Impact on the institution .....17
  - Choosing to outsource.....21
  - The role of microfilm .....26
  - Chapter summary .....29
  - Bibliography .....29
- 3 The digital image *Ross Spencer*.....33**
  - Introduction.....33
  - Basic concepts .....34
  - Post-processing.....39

Image specification .....	42
Setting a standard .....	44
Chapter summary .....	45
Bibliography .....	45
<b>4 The process of selection.....</b>	<b>47</b>
Introduction .....	47
A strategy for digitization .....	47
The principles and process of selection .....	49
Prioritization .....	57
Special collections.....	58
Chapter summary .....	59
Bibliography .....	60
<b>5 Surveying collections .....</b>	<b>63</b>
Introduction.....	63
Why do a survey?.....	63
Conducting a survey .....	64
Analysing data and making recommendations .....	88
Chapter summary .....	89
Bibliography .....	89
<b>6 Equipment for image capture .....</b>	<b>91</b>
Introduction.....	91
Risks during imaging .....	91
Features to consider.....	94
Types of equipment .....	97
Selecting and testing .....	104
Chapter summary .....	105
Bibliography .....	106
<b>7 Preparation of document formats and fastenings .....</b>	<b>109</b>
Introduction.....	109
Preparing formats and fastenings.....	109
Fitting preparation into the workflow.....	133
Chapter summary .....	135
Bibliography .....	136
<b>8 Preparation of damaged documents .....</b>	<b>137</b>
Introduction.....	137
Is conservation work always needed? .....	137

Treatment options .....	141
Documentation .....	147
Fitting conservation work into the workflow .....	148
Chapter summary .....	157
Bibliography .....	158
<b>9 Setting up the imaging operation.....</b>	<b>159</b>
Introduction.....	159
Working environment.....	159
Workflow and document tracking .....	165
Staffing.....	166
Chapter summary .....	169
Bibliography .....	169
<b>Conclusion .....</b>	<b>171</b>
<b>Further reading .....</b>	<b>173</b>
General guidelines .....	173
The digital image .....	174
Equipment for image capture.....	175
<b>Index .....</b>	<b>177</b>
